

# RAKIBUL HASAN

## Frontend Engineer & UI Architecture Specialist

📍 Dhaka, Bangladesh ✉️ [your-email@domain.com] 🌐 github.com/RH247 💼 linkedin.com/in/[your-handle]

### PROFESSIONAL SUMMARY

Results-driven Frontend Engineer specializing in building scalable web applications with React 18, Vite, and modular CSS architecture. Proven expertise in engineering high-performance user interfaces adhering to strict Web Vitals benchmarks, zero Cumulative Layout Shift (CLS), and accessible cross-browser standards. Dedicated to delivering clean, maintainable frontend systems and component-driven libraries for modern enterprise products.

### TECHNICAL EXPERTISE

**Languages:** JavaScript (ES6+), HTML5 Semantic Architecture, CSS3 / Modern Flexbox & Grid  
**Frameworks & Libs:** React 18, React Router v6, Next.js (Basics), Lucide Icons, Redux Toolkit  
**Styling & UI:** Modular CSS, CSS Custom Properties, Glassmorphism, Tailwind CSS, Responsive Design  
**Tools & Workflows:** Vite, Git/GitHub, NPM, Webpack, Figma to Code, RESTful API Integration, Chrome DevTools

### ENGINEERING EXPERIENCE

#### Frontend Engineer (Contract) — [Freelance & Open Source](#) 2023 – Present

- Architected and shipped modular React 18 web applications achieving 98+ Google Lighthouse performance ratings.
- Engineered fully decoupled component architectures with centralized JavaScript data models, streamlining client content updates without touching markup.
- Implemented fluid glassmorphic UI systems with CSS Custom Properties, reducing bundle footprint by eliminating heavy CSS runtime libraries.

#### Junior Frontend Developer — [Digital Solutions Lab](#) 2022 – 2023

- Transformed complex Figma wireframes into pixel-perfect, accessible, and responsive components across 10+ viewport matrices.
- Integrated asynchronous REST APIs and implemented optimistic UI updates for real-time customer data feeds.
- Collaborated across agile Git-flow sprints, participating in code reviews and cross-browser regression testing.

### SELECTED PRODUCTION PROJECTS

#### CyberFolio Template [React 18](#) [Vite](#) [Modular CSS](#) [github.com/RH247/rakibul-portfolio-react](#)

- Engineered a ThemeForest-ready cyber-themed portfolio template featuring multi-route architecture and fluid micro-interactions.
- Implemented zero-bloat modular CSS stylesheets and optimized assets for sub-second paint targets.

#### Hyperion SaaS Platform UI [React](#) [REST APIs](#) [CSS Grid](#) [Featured Production Build](#)

- Developed an enterprise cloud analytics telemetry dashboard with role-based access flows and responsive dark theme views.

### EDUCATION & CREDENTIALS

#### B.Sc. in Computer Science & Engineering — [\[University Name, Dhaka\]](#) Graduated / Enrolled
